Brow Lamination - The buzziest trend in beauty!

Date: Tuesday April 26th, 2022
Time: 3:00pm EST

The microblading alternative taking over gives brows the illusion of fullness and growth in a fast, noninvasive way.

This is a great service if your clients are looking for a more 'fluffy' brow without

the need for a brow gel, or if their natural brow hairs are curly, unruly, or point downwards.

- How does brow lamination work?
- Why is it called that?
- Is it good for all types of brows?
- Are you stuck with fluffy brows once you've been laminated?

Join our **FREE** webinar and learn more about Thuya Brow Lamination and how to give your clients those **WOW BROWS** they have been dying for.
